

Prayers at Democratic Convention in St. Louis.

By Archbishop Glennon

"Omnipotent, eternal God, Master of nations and of all men, we humbly beseech thy protection and benediction. Thou hast made us in thine own image and likeness: drive from our hearts any blood-lust and barbarism of the jungle; preserve our nation in peace—peace rooted in honor.

"Our trust in thee is absolute; grant that our trust in thy people, whatever their nation, may not be in vain. Give us strength to do bravely—sanity to act wisely—justice to exercise toward all. Give us leaders in whom the passion of service shall supplant the lust of office—strong men and true, whose patriotism shall be as broad as America—whose sympathies shall be as as humanity. Drive from their hearts all narrowness of sect, or caste, or tradition, or locality.

"Blessed then and prosperous will this nation be, if they who lead shall live pure, speak true, right wrong—remember thy Kingship and serve thy people!

"Our Father, who art in heaven, hallowed be thy name, thy kingdom come, thy will be done on earth as it is in heaven. Give us this day our daily bread, and forgive us our trespasses, as we forgive those who trespass against us; lead us not into temptation, but deliver us from all evil. Amen."

By Rev. W. J. Hardesty

"Oh, Lord, our Lord, how excellent is thy name in all the earth. We bow in reverence to thee, our heavenly father, imploring thy blessings to rest upon us, the noblest nation on earth now assembled in convention. We pray thy blessing to rest upon all assembled here.

"May wisdom guide and prudence dictate their every work, so that this nation may rest quietly in peace, ever remembering that righteousness exalteth a nation and sin is a reproach to any people. May they make haste slowly but surely, wise as serpents, harmless as doves.

"Do thou bless the great men of this nation. May they guide the old ship of state safely on the quiet and still waters of peace. Bless the nations of the earth so that wars shall cease and peace prevail. We thank thee for the great men of America in whose hands our safety is entrusted. Bless those who are in authority over us so we may lead quiet and peaceful lives in honor of thy name.

"Do thou bless every soul here with the blessings of peace and and may thy name be glorified. Amen."

Shine Your Straw

Have your druggist prepare a small quantity of shellac cut with wood alcohol, light-colored shellac for light hats, brown shellac for brown or dark colors. For black hats you may add to the brown shellac and alcohol a small quantity of nigrosine. Shake well before using. Apply lightly and evenly with a small brush. It is well to lay the hat aside for a few hours to dry thoroughly, and to allow the odor of alcohol to evaporate. If the mixture is too thick, add a little more alcohol; if too thin, add a little more shellac.

Howard Murphy Not Guilty

Police Judge A. B. Crismond, Clyde F. Robinson and Frank Fetterhoff went to Salisbury Monday to appear as witness in the case of the state against Howard E. Murphy, charged with desertion and non-support of his wife and children. The case was brought up in Justice Trammel's court in Salisbury, and the charge against the defendant was dismissed.

Forethought

People are learning that a little forethought often saves them a big expense. Here is an instance: E. W. Archer, Caldwell, Ohio, writes: "I do not believe that our family has been without Chamberlain's Colic, Cholera and Diarrhoea Remedy since we commenced keeping house years ago. When we go on an extended visit we take it with us." Obtainable everywhere.

Vinegar Versus Bugs

For the housewife who dislikes the task of picking over greens of various kinds because the numbers of tiny bugs which often cling to the leaves, here is a hint which may prove helpful: After picking off all dead leaves and other foreign matter, just put a small quantity of vinegar, say a quarter of a cup, into the panful of water in which you rinse your greens, and you will be surprised to see how the little bugs will drop off into the vinegar-water. The acid of the vinegar seems to render them powerless to cling to the leaves, and thus water-cress, lettuce, spinach, dandelions and other greens may be quickly and easily cleaned of insects.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

A Whitham Founder Dead

William A. Rankin of Tarkio, Mo., whose home and principal holdings were in a neighborhood of Rankin, Ill., died about the first of June.

Mr. Rankin was one of the promoters of the town of Whitham in the northwest part of the County and in that enterprise a partner of E. H. Whitham and Ben Durham.

The wealthy Wm. Rankin was one of the plainest and best of men. The company, Rankin, Whitham & Co., own about 6000 acres of fine second bottom farms on which Whitham is located at the crossing of the Wabash and Santa Fe R. Rs.

The Courier Editor especially prized the confidence and friendship of the deceased.

Impossible To Get So Much Motor Car Value For The Money

WE FIND this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

Appearance—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

Motor—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

Quality—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

Economy—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.
